

Quick Start Guide: Android

>> Install

1. Install PEPID onto your Android device using the Android Market application.

- Open Market on your device
- Select the magnifying glass to search for PEPID
- Select "Install" on the PEPID information page

>> Download

1. Open PEPID on your device and select the Manage Products (or Install) button.

No PEPID Suites are installed.

Login to your PEPID account to download your subscription or trial. Don't have an account? Visit pepid.com to sign up.

Use the default login to download the free PEPID product.

Manage Products

2. Enter your email address and password.

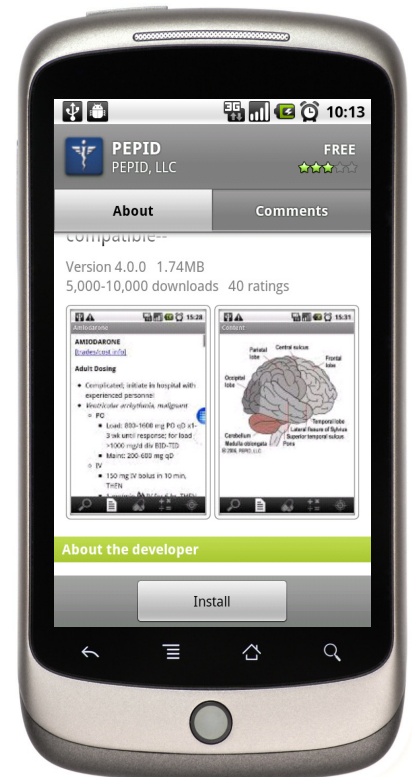

Login

PEPID
