

Transforming BlackBerry smartphones into a powerful clinical and drug reference at the bedside

Comprehensive Clinical Information

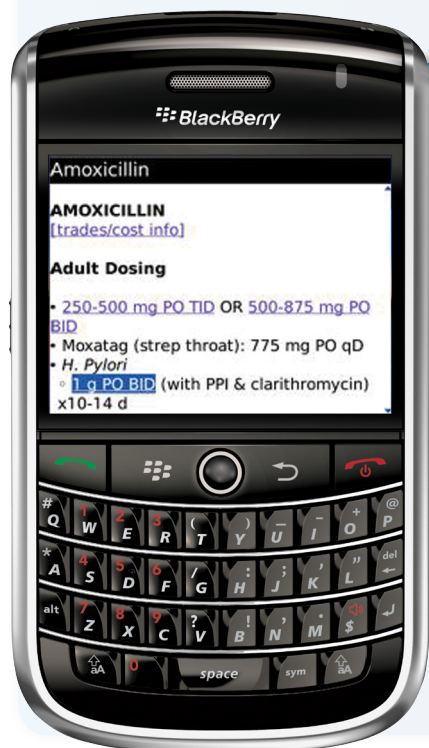

PEPID Product Suites

Improve patient care by delivering clinical information to the point of care with PEPID for BlackBerry. Our comprehensive clinical and drug references ensure healthcare professionals get the information they need, when and where they need it most.

Impact on Practice

PEPID for BlackBerry has been proven to help healthcare organizations:

1. Increase clinical productivity
2. Make better informed decisions
3. Improve patient care

Specialty-Focused Information

PEPID has specialty-focused software suites designed with a specific healthcare professional in mind — developed to take full advantage of BlackBerry technology.
