

PEPID™ EMS PLUS NAEMSE SUITE

PEPID EMS Plus NAEMSE SUITE provides paramedics and EMTs with the information they need for over 1,500 medical and disease topics; 6,500 drugs/herbals/remedies; hundreds of medical calculators, 3,000 dosing calculators; and a drug interactions generator. Signs and symptoms, assessment, interventions, and transport issues are instantly accessible to save you precious time.

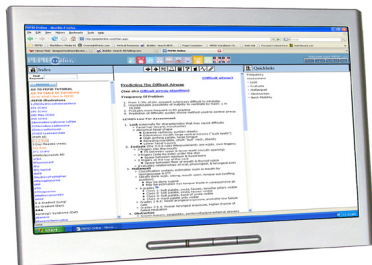

Topics and tools include overdose management, suicidal risk assessments, EMS quick drugs, quick IV calculations and CBRNE events, USDOT placards; algorithms for crash, difficult, and main emergency airways; latest American Heart Association Guidelines, comprehensive toxicology and detailed procedural illustrations. Reviewed by the National Association of EMS Educators™ to ensure you always have the latest, most accurate information at your fingertips.

En route or on the scene, PEPID's fully-integrated content will allow you to:

- employ best-practice methods
- maximize safety
- increase accuracy
- ensure quality-of-care
- improve workflow
- and save time

From pediatrics to geriatrics, content includes everything you may need to know anytime at the point-of-care.

Point-of-care is wherever you treat patients. Are your decision-support tools as mobile as you are?

Instant access to medical and drug information on Palm®, BlackBerry® and Windows® handheld devices, Online, and integrated into departmental systems.

PRODUCT DETAILS AND SPECIFICATIONS

1,500 Disease and Medical Topics

Ensure quality of care with our comprehensive, integrated emergency medical content. Logically organized for ease of use in practice; it includes signs and symptoms, assessment, interventions, and transport issues and medical topics.

Complete No. 1 Rated Drug Database

Save time by accessing drug information without leaving the patient's side. Includes over 6,500 drug names, herbal remedies and OTC medications with extensive kinetics and mechanism of action information, overdose management, and trade/cost information. Developed with the American Society of Health-System Pharmacists.

Drug Interactions Generator

Maximize safety by utilizing our drug interactions generator. Select up to 40 drugs simultaneously and identify seriousness of interactions rated on a scale of 1-5. Each interaction is accompanied with an explanation of the effects of the interaction.

Over 3,000 Dosing Calculators and Medical Calculators

Make accurate patient-care decisions. Provides quick access to virtually any calculation you need such as glomerular filtration rate, acidosis, creatinine clearance and much more!

Faster Access to the Information You Need

PEPID navigation, TOC and Index are designed for easy, fast, flexible access to our comprehensive medical and drug databases. All EMS-specific topics are color-coded for quicker search. Faster access to the information you need means quicker response to patient needs and better workflow within your team.

High-Resolution Images Ensure Accuracy

There are procedural support images and anatomical illustrations throughout. Referential images include capnography and rhythm strips, step-by-step procedures (including Cricothyrotomy and Oropharyngeal insertion techniques), USDOT HazMat Placards, even photos of Venomous Animals of North America.

Comprehensive Toxicology and Specialty Sections

PEPID's renowned Toxicology Section covers everything from medications and drugs of abuse to food, plants, pests, household cleaning agents and herbicides. EMS-focused sections cover environmental, natural, and man-made disasters, including Haz Mat & CBRNE events.
