

PEPID™ RN STUDENT CLINICAL COMPANION

Designed and written by experienced nurses, PEPID RN Student Clinical Companion (RN Student) is comprehensive, accurate, and the perfect resource for learning in classroom, clinical and study settings. Students literally carry classroom instruction on diseases, pharmacology, legal and ethical issues, patient care and disease pathology with them into clinicals and then on to practice. Content is updated regularly, so students can be sure that they are referencing accurate, current information.

Available online as well as for Palm®, PocketPC®, Windows Mobile® and BlackBerry® handheld devices, PEPID RN Student allows instant access to 6,500 drug names, herbals, OTC medications and Nursing Considerations; nearly 2,300 medical topics and Nursing Procedures; medical calculators, 3,000 dosing calculators; a drug interactions generator; illustrations and an optional lab manual. Fully-integrated content and tools include hotlinks to lifesaving protocols.

In classroom, learning lab, clinical and study settings, PEPID's fully-integrated content will allow you to:

- learn and employ best practice methods
- maximize safety
- improve clinical performance
- avoid errors
- improve quality-of-care
- save time
- and build confidence

From pediatrics to geriatrics, content includes all the topics and tools students or professionals may need anytime at the point-of-care.

PEPID™ Lab Manual

Consider adding PEPID's Lab Manual to your subscription. Containing nearly 300 lab tests, clinicians can have instant access to critical values, test descriptions, crucial ordering points, method differences, normal reference ranges, related tests, equations and much more!

PRODUCT DETAILS AND SPECIFICATIONS

2,300 Disease and Medical Topics

Ensure quality of care with our comprehensive, integrated medical content. Logically organized for ease of use in the classroom and in practice; it includes background, pathophysiology, diagnosis, treatment and disposition on disease and medical topics. Nursing Procedures and Nursing Considerations add focused content to help you provide more accurate care.

Complete Nursing Foundation

Comprehensive Introduction to Nursing with reviews of levels of practice, legal and ethical issues, documentation, roles and clinical focus. Clinical anatomy and procedural illustrations are ideal for study review as well as bedside support.

Drug Interactions Generator

Maximize safety by utilizing our drug interactions generator. Check up to 40 drugs simultaneously and identify seriousness of interactions rated on a scale of 1-5. Each interaction is accompanied with an explanation of the effects of the interaction.

Over 3,000 Dosing Calculators and Medical Calculators

Make accurate patient-care decisions. Provides quick access to virtually any calculation you need such as glomerular filtration rate, acidosis, creatinine clearance and much more!

No. 1 Rated Drug Database with Nursing Considerations

Save time by accessing drug information without leaving the patient's side. Includes over 6,500 drug names, herbal remedies and OTC medications with extensive kinetics and mechanism of action information, overdose management, and trade/cost information. Developed with the American Society of Health-System Pharmacists.

Faster Access to the Information You Need

PEPID navigation, TOC and Index are designed for easy, fast, flexible access to our comprehensive medical and drug databases. Faster access to the information you need, means higher productivity and better workflow.

Integrated NANDA-I Diagnoses and Stedman's Terminology

All of the nursing diagnoses contained in the NANDA publication, Nursing Diagnoses: Definitions and Classification 2007-2008 are integrated throughout PEPID to promote better communications and improve patient safety. Terminology from Stedman's Medical Dictionary, 28th Edition, is also fully-integrated for enhanced clinical and educational value.
