

PEPID™ PORTABLE DRUG COMPANION SUITE

PEPID™ Portable Drug Companion Suite (PDC) is the complete, proven reference tool and drug database developed in partnership with the American Society of Health-System Pharmacists (ASHP). All healthcare professionals can benefit from this comprehensive, authoritative drug reference, which is included in all PEPID product suites. PEPID PDC allows immediate access to over 6,500 drugs, herbals, and OTC medications, thousands of dosing and medical calculators, and an integrated drug interactions generator.

A study led by Georgetown University Medical Center ranked PDC number one in practical PDA drug information delivery. PEPID PDC is available online as well as for Palm®, PocketPC®, Windows Mobile® and BlackBerry® handheld devices. When seconds count, PEPID PDC saves you time for better workflow, and ensures that you are making more accurate patient care decisions for a safer workplace.

PRODUCT DETAILS AND SPECIFICATIONS

6,500 drug names, generics, OTCs, herbals and food. A complete drug database with extensive kinetics and mechanism of action information, adult and pediatric dosing with built-in dosing calculators (weight-based, body surface area-based, even IV drip rate calculators), overdose management, and trade/cost information. Contains Canadian drug names and links to all Current Major FDA Warnings and guidelines, like antidepressants in children.

Multiple Platform Delivery

- Palm® OS and OTA
- BlackBerry® OS and OTA
- PEPID™ Online Internet/Intranet
- Integration with Web based EMR and DSS Systems
- Pocket PC™ and OTA
- Windows® Mobile Wireless
- Smartphones and iPhone

PEPID PDC is fully-integrated into the clinical content of our other suites. With PEPID, doctors and nurses get the best of both worlds —a great clinical database and the number one rated drug database!

« « « TOPICS & TOOLS

Drug Interactions Generator

Maximize safety by utilizing our drug interactions generator. Check up to 40 drugs (PDAs) or 50 drugs (online) simultaneously and identify seriousness of interactions rated on a scale of 1-5. Each interaction is accompanied with an explanation of the effects.

Comprehensive Toxicology and Specialty Sections

PEPID's renowned Toxicology Section covers everything from medications and drugs of abuse to food, plants, pests, household cleaning agents and herbicides. Includes comprehensive coverage of environmental, natural, and manmade disasters, including Haz Mat & CBRNE events.

Over 3,000 Dosing and Medical Calculators

Make accurate patient-care decisions. Provides quick access to virtually any calculator or score you will ever need including weight-based, body surface area-based, and IV drip rate calculators.

Faster Access to the Information You Need

PEPID navigation, TOC and Index are designed for easy, fast, flexible access to our comprehensive medical and drug databases. Faster access to the information you need, means higher productivity and better workflow.

Internationally Comprehensive

SI Lab Units plus American units, an SI calculator and metric conversion calculators.

Fully-Integrated Into All PEPID Suites

PEPID PDC may be used as a standalone, but is also fully-integrated into the clinical content of our other suites. Because topics and tools are fully-integrated, all PEPID suites can help you employ best-practice methods, maximize accuracy and safety increase productivity, ensure quality-of-care and improve workflow.
